

Product Specification Details

PRODUCT NAME: PORTABLE VIDEO BORESCOPE
PRODUCT CODE: PVB 100

PRODUCT DESCRIPTION: Inspect hard to reach areas where it is impossible to see with this Video Boreoscope. The 1220mm flexible tube can reach those tricky areas and provides a real time. A convenient lightweight compact unit with high resolution colour camera and 2.5" monitor ensures inspections of automobile/aviation engines, pipes and mechanical components a breeze. A must have tool for mechanics, aviation engineers and pest controllers.

Details:

- High resolution colour camera
- Convenient compact size
- 2.5" colour monitor
- Insertion tube of 1220 mm, probe diameter of 7 mm
- Real-time display
- Powered by 3 x AA batteries with a operation life of over 3 hours
- Unit casing is protected from water, oil, weak acid and mild bases
- The optimized illuminant design can illuminate every crack and burn mark on a highly reflective surface
- Ideal for inspection & observation beyond the reach of human eyes. Great for use on automobile/aviation engines, pipes and mechanical components etc

PRODUCT SPECIFICATION:

PORTABLE VIDEO BORESCOPE

Outer Features:

Flexible Shaft	Soft
Winding Angle	Any Direction
Working Length	1220mm
Outer Diameter	φ7mm

Camera System:

Viewing Direction	Direct View
Viewing Angle	67°
Focal Length	Fixed
Depth of Observation	5-100mm

Lighting:

Lighting Source	1W White LED, Fiber, Transmission
Illumination	>4000 Lux, Subject to the usage of batteries

Display System:

Dynamic Resolution	320x240
TV System	NTSC
S/N Ratio	42dB
Monitor Size	2.5"

Power Supply:

Power	3xAA Battery
Working Hours	>3 Hours
